Education

Thapar Institute Of Engineering And Technology
Bachelor of Engineering in Mechatronics Engineering
CGPA : 8.46

Patiala, India
2023 – 2027

Experience

Bluebird Events Pvt Ltd. | Agra,Uttar Pradesh
Full Stack Developer Intern

June 2025 – July 2025
<https://bluebirdevents.in/>

- Designed and implemented responsive user interfaces for the BlueBird Events website using React.js, enhancing user engagement and accessibility.
- Integrated REST APIs with frontend components to display and update event-related data.
- Translated business requirements into functional UI solutions in collaboration with design and dev teams.

Projects

Smart Event Management Platform | React.js, Node.js, Express.js, MySQL

- Built an event management platform with real-time RSVP tracking and notifications.
- Developed event analytics dashboards, increasing engagement monitoring efficiency by 60%.
- Enforced secure admin panel, reducing manual event/user tracking time by ~80%.

Productivity / Task Automation Tool | React.js, Node.js, Express.js, MySQL

- Developed a task management system with deadlines, priority tagging, and notifications for teams of up to 50 users.
- Added PDF/CSV export for tasks, reducing reporting time by ~70%.
- Optimized backend CRUD operations, improving task assignment efficiency.

Personal Finance Tracker | React.js, Node.js, Express.js, MySQL, Chart.js

- Created a finance tracking tool for budgeting and expense analysis, supporting 500+ active users.
- Visualized income and expenses using interactive charts, enhancing financial insight and decision-making.
- Ensured user data confidentiality and integrity by implementing robust authentication and secure data storage solutions.

Achievements

- Ranked Top 6% globally (63rd out of 1000+ teams) in the Zelestra X AWS ML Ascend Challenge (2nd Edition)
- Secured Top 25 Global Rank in the 20-day Shell.ai Hackathon 2025 for building a high-performance hybrid ML pipeline to predict sustainable fuel blend properties.
- Practiced and solved 450+ coding problems on LeetCode and GFG, improving coding efficiency and accuracy.
- Cleared SIH 2025 Internal Hackathon (Problem SIH25108), selected from 256 participating teams.

Position of Responsibility

GeoThermX — Tech. Head & COO (Startup)

Venture Lab , Thapar Institute of Engineering and Technology, Patiala

2025 – Present

geothermx.netlify.app

- Leading a team of 3 to design and develop the startup website using React.js, Node.js, and MongoDB.
- Managing development workflow, code reviews, and deployment pipelines to ensure efficient delivery of features.
- Planning, assigning, and tracking technical and operational tasks to meet project deadlines and business goals.
